

GROUP 7

Project Title: NDEJJE CLEAR PASS - Digital Student Clearance

Deadline: 14th April 2026;

1. PROBLEM STATEMENT

Students at Ndejje University Kampala Campus face a manual, paper-based clearance system requiring physical stamps from Accounts, the Dean, and the Registrar. This leads to long queues and difficulties verifying tuition payment thresholds (60% for registration, 80% for lecture attendance, and 100% for exam number). Security staff struggle to manually verify these permits at block entrances, creating significant administrative bottlenecks.

2. PROPOSED SOLUTION & TARGET USERS

NdejjeClearPass is a mobile application developed in **Kotlin** using **Jetpack Compose** and **MVVM architecture**. It digitalizes the workflow by allowing **Students** to track clearance status, **Administrators** to approve bank references, and **Security Staff** to scan QR-coded permits for real-time verification.

3. INITIAL LIST OF PLANNED SCREENS

1. Login : Role-based access for users.	6. Exam Permit : 100% clearance document
2. Dashboard : Visual tuition % status.	7. Tuition Config : Staff fee settings.
3. Dean’s Reg : Course & retake entry.	8. Payment Approval : Review references.
4. Payment Sub : Bank reference input	9. Student List : Clearance audit (LazyColumn)
4. Payment Sub : Bank reference input	10. Profile/Settings : User photo management

4. TEAM ROLES & ASSIGNMENTS

ROLE	NAME	REGISTRATION NUMBER
LEAD DEVELOPER	KUUWE EMMANUEL	24/2/306/D/402
UI/UX SPECIALIST	NABAYA NESTROY	24/2/306/D/053
GIT AND QUALITY MANAGER	MBONEIREKU CYRUS	24/2/306/DJ/091
TESTING AND QA ENGINEER	WANDERA EDWIS	24/2/306/D/445
DOCUMENTATION AND RESEARCH LEAD	KABASIITA VICTORIA MASIKO	24/2/314/D/246
